About

I'm a software engineering student who's excited to learn and grow in both front-end and back-end development. I've started building small full-stack projects using languages like C# and PHP. I enjoy figuring out how things work and solving problems through debugging and troubleshooting. I'm good at staying organized and managing my time, and I'm comfortable working on my own to complete projects from start to finish.

Skills

- Time Management
- Team Collaboration
- Front-End Development
- Back-End Development (PHP)
- Debugging
- Desktop Application Development (C#)
- Web Application Development

Experience

- Developed a Study Management System - **Personal Project** (C# - Desktop)
- Developed a Html Game - **Personal Project** (HTML,CSS,JAVA SCRIPIT)
- Developed School management System – **Personal Project** (C# - Desktop)
- Kick Blast Judo Payment Calculator – **Academic Project** (C# - Desktop)
- Velvet Vouge Shopping Web Application – **Academic Project** (Front-End, PHP, MySQL -Web Application)

Education and Training

HND In Software Engineering **Reading** | **Trincomalee, Eastern Province** (Esoft Metro Campus)

Diploma in Technology | **Trincomalee, Eastern Province (02/2025)** (Esoft Metro Campus)

- Productivity With MS Office. *Merit*
- Network Essential. *Distinction*
- Internet & Web design. *Distinction*
- Graphics Multimedia. *Merit*
- Software Engineering. *Merit*
- Python programming. *Merit*
- Database SQL. *Merit*
- Programming C#. *Merit*
-

St. Joseph's College, Trincomalee | **Trincomalee, Eastern Province (02/2024)**

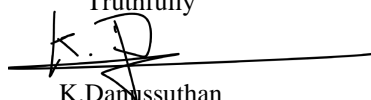

- Ordinary Level Completed
- Advance Level Completed
-
